Up to 75% Scholarship Available for Keralites

ABOUT THE PROGRAM

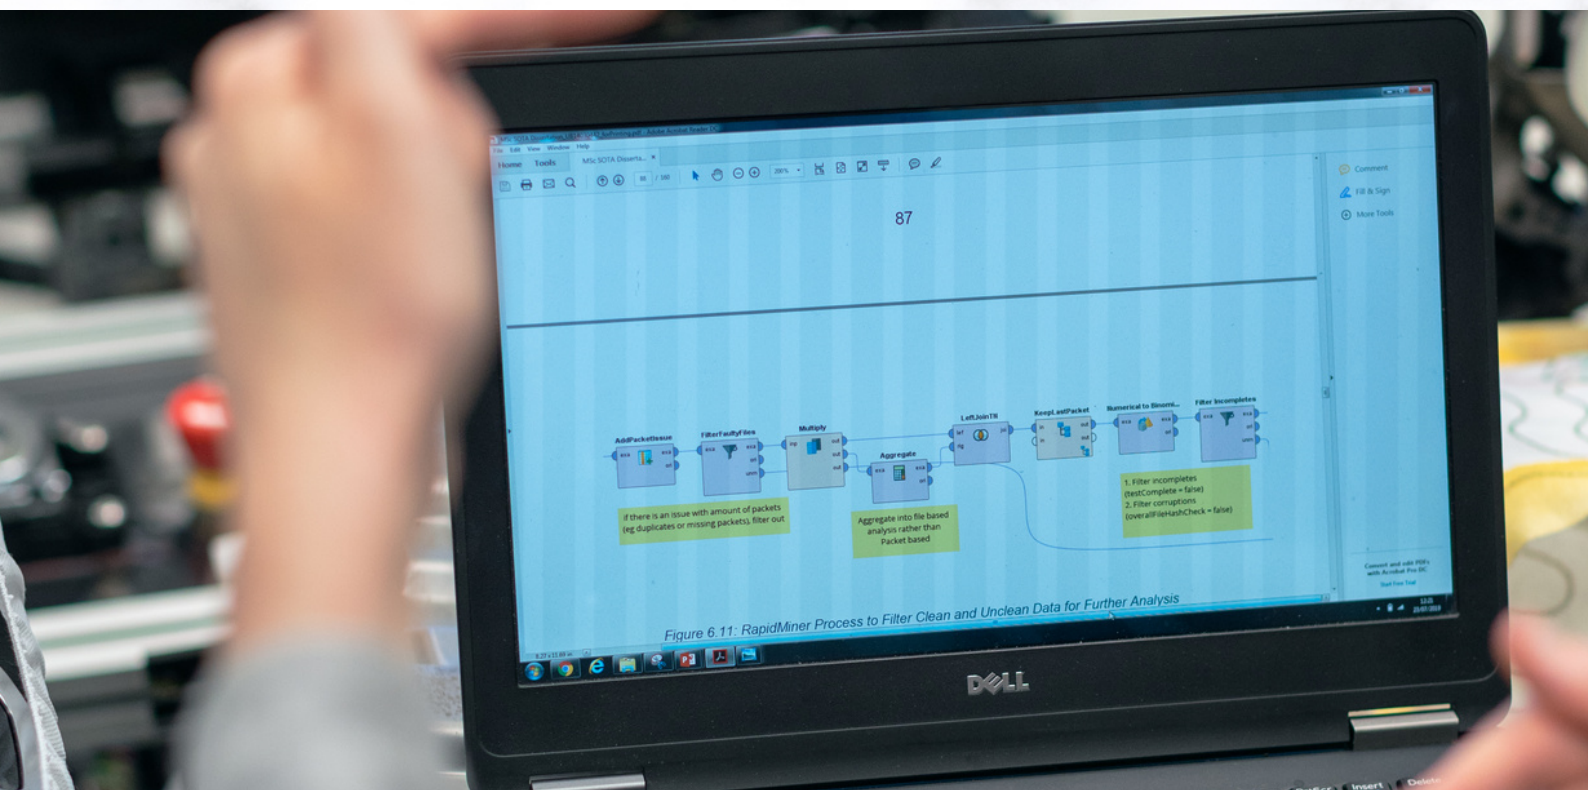

Software testing is the art of investigating software to ensure that its quality is in line with the requirement of the client. Professionally trained software testers are in great demand nowadays and are sought after in the industry. The profile of the software tester has seen phenomenal growth. From being a test engineer, one can grow to become a senior test engineer, from a test lead to a test manager; or alternatively, one can become a QA lead or QA Manager. Moreover, the options available on the testing tools side are vast.

OBJECTIVES OF THE COURSE

- Know the basics of SDLC
- Familiarize with Software Testing Life Cycle
- Understand the roles and responsibilities in testing
- Learn how to design, write and manage test cases
- Learn how to do Functional and Non-functional Testing of a software product
- Understand the basics of automation testing
- Understand how to use Selenium Webdriver for automation testing.

AGENDA

- Java Foundation for Software Testers
- Basics of Software Development Life Cycle
- Software Testing Life Cycle
- Test Roles and Responsibilities
- Test Design and Management
- Functional Testing
- Non-functional Testing
- Automation Testing
- Automation Test Framework
- Introduction to Selenium
- Selenium IDE
- Automation using Selenium Webdriver
- Project Work

DURATION OF THE COURSE

Course Components	Duration
Self-paced Learning Module	125 hours
Instructor-led Training + Industry Expert Interaction (Live)	50 hours
Project	100 hours
Industry Internship (Virtual)	125 hours
TOTAL	400 hours

HIGHLIGHTS OF THE COURSE

- 75% scholarship for meritorious students (Keralites)
- 125 hours of Virtual Internship at TCS iON
- Access to more than 14000 LinkedIn Courses
- 100% Placement Assistance Guarantee*
- Training Methodology using PERL Model
- International Readiness Program
- Badges from partner companies
- Employability Skills Training
- IELTS Basic Training
- Cross-Cultural Training

COURSE FEES

Rs. 19,700 + GST

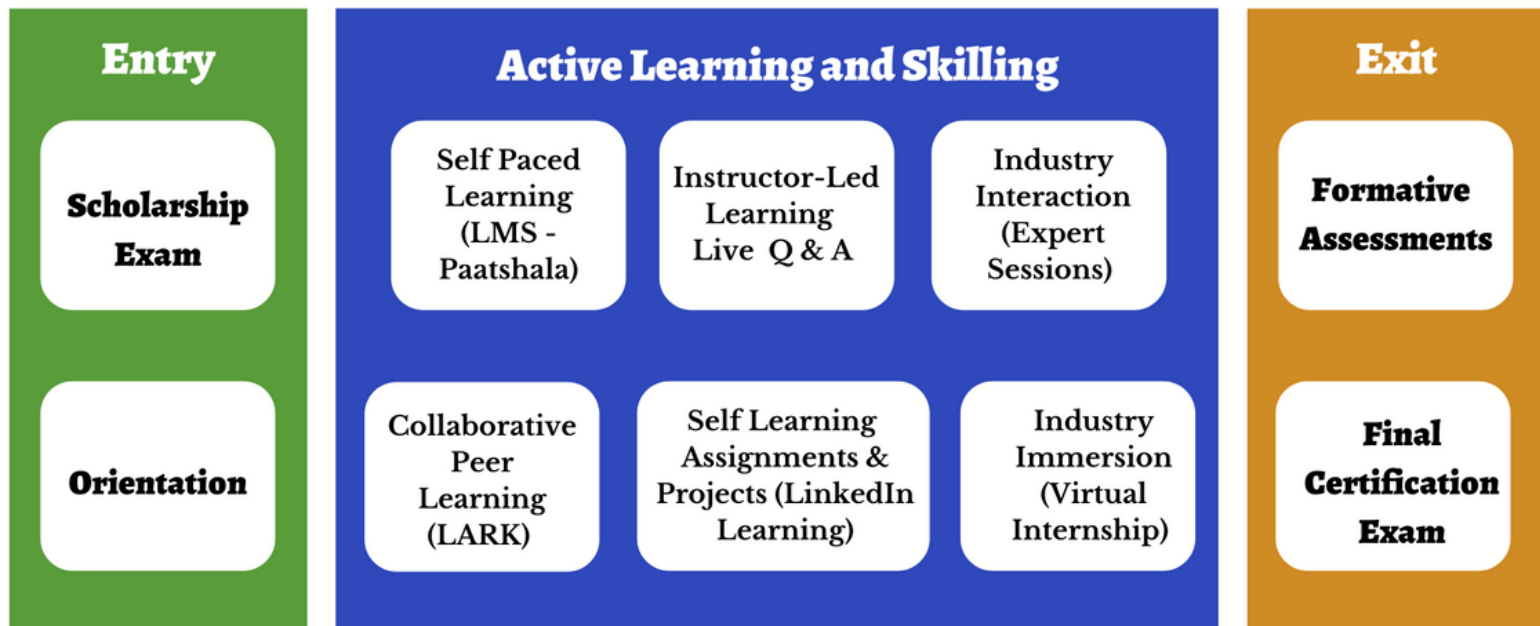

ELIGIBILITY

Engineering / Science Graduate or 3-year Diploma holders / Those who are awaiting final results can also join with basic Knowledge computer fundamentals

Our Online Programme Framework

Positive Engagement and Realtime Learning (PERL)

Highly immersive and multi channel model of engagement – Feedback rating of 4.5 / 5.0
