## ABOUT THE PROGRAM

The MERN stack is an excellent choice for web developers who wish to develop high-quality web applications using JavaScript. The core technologies define the MERN stack - MongoDB, Express.js, React, and Node.js - all are based on one language, Javascript. MERN stack, in addition to using high-performance and customized technologies, allows for easier and faster deployment of full-stack web applications. Its flexibility and open-source nature make it popular among developers. This program helps the learners to build data-driven applications, as well as test, secure, and deploy their code.

## OBJECTIVES OF THE COURSE
